

Seating / Multi-use Chairs

# SODA WOOD

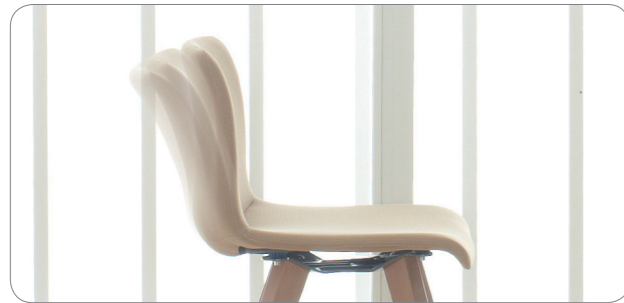

---

A ergonomic designed, unified back and seat rest, a modern and stylish design with smooth curves. SODA series provides not only comfort, it is a beautiful addition to your space.

# Design & Function

### Flexible tension function

The seat with flexible tension supports the movement of the seated person comfortably.

### Curved Waterfall Seat

Waterfall shape reduces the burden on the thigh, soft curved back seat integrated type.

### Lower coupling structure

Increased robustness by distributing load between steel plate and steel plate between seat and leg.

### Ash wood legs

Ash leg of natural color with luxurious appearance and firmness.

Design and specification may change without notice. Subject to stock availability. Colours are only an indication actual colour samples available on request.
