YOUR PRIVATE SPACE. ANYWHERE.

MUTE

Acoustic Office Pod

Work. Call. Focus. Without Distraction.

Mute

ACOUSTIC BOOTH

In today's fast-paced, open environments, finding a quiet space can be a challenge. MUTE solves that problem by delivering a compact, beautifully engineered private workspace you can place almost anywhere. Whether you need to take an important call, concentrate deeply, or create without interruption, MUTE provides a controlled, distraction-free environment on demand.

Crafted with high-performance soundproof panels and PET acoustic walls, MUTE significantly reduces external noise while maintaining a comfortable interior atmosphere. Its integrated ventilation system ensures fresh airflow, while the adjustable ceiling light allows you to tailor brightness to your preference. The tempered glass door adds a sleek, modern touch while preserving openness and visibility.

Inside, a minimalist setup includes a functional work surface, built-in cable management, and power access everything you need to stay productive without clutter. The durable metal frame and composite structure ensure long-term stability, while the refined exterior design blends seamlessly into offices, co-working spaces, studios, and even home environments.

Available in a range of contemporary finishes, MUTE is more than just a pod. it is a personal workspace reimagined.
