**DT Series**  
Storage system

## THE DT

DT supports modern work activities by allowing individuals to easily store and retrieve files, work tools and personal items.

The DT series is a versatile system of premium quality steel storage cabinets and accessories with space saving ABS retractable tambour slats doors that are lockable and environmentally friendly.

Uses for DT include as elements to separate work zones, departments or corridors, or as an extended work top, in addition tambour top planter units are available to introduce greenery and screening.

DT is stocked locally in the quick ship models shown below and they can be custom made in various colours and sizes.

\*Image features customised work top in Melamine
