

AMENITY SYSTEM / sofas

CS7500series

It creates a casual atmosphere where you can sit comfortably and relax freely.

CRAFTSMANSHIP

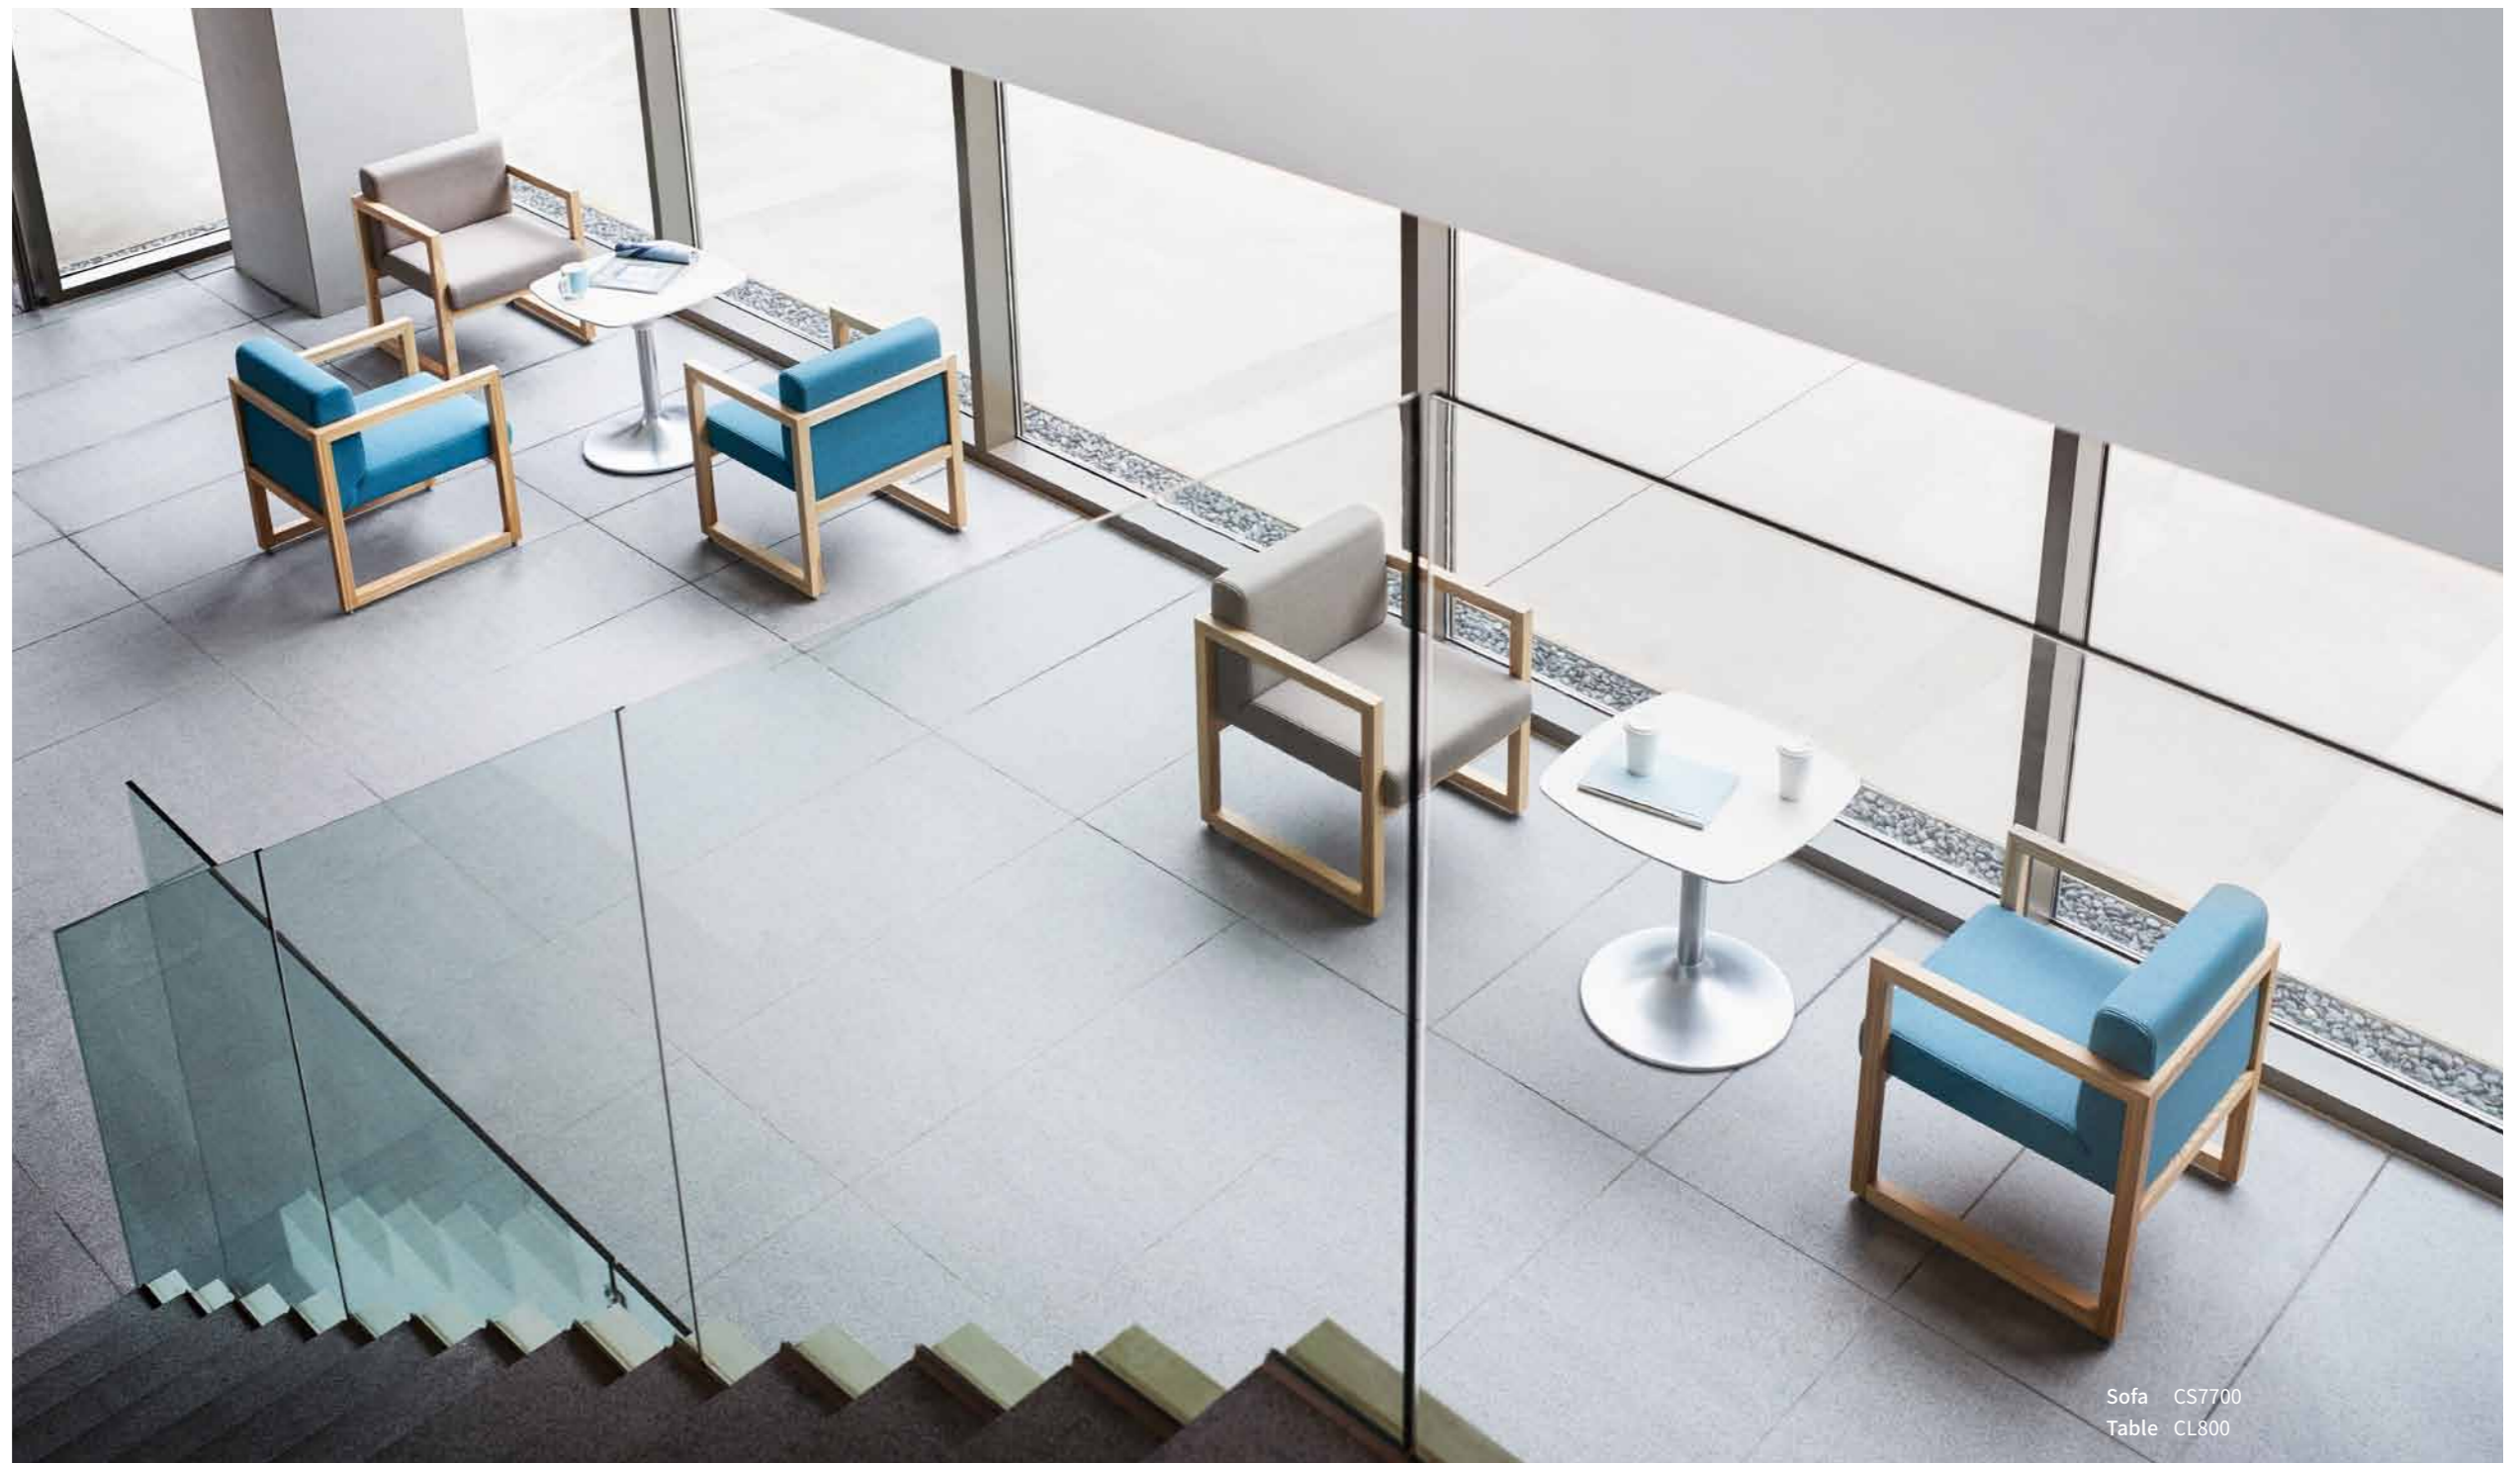

At the state-of-the-art facility of Fursys, we are crafted with the help of professional technicians. Only the products produced through the quality test of the specialized production line and the international authorized agency by item are displayed.

COLOR & MATERIALS

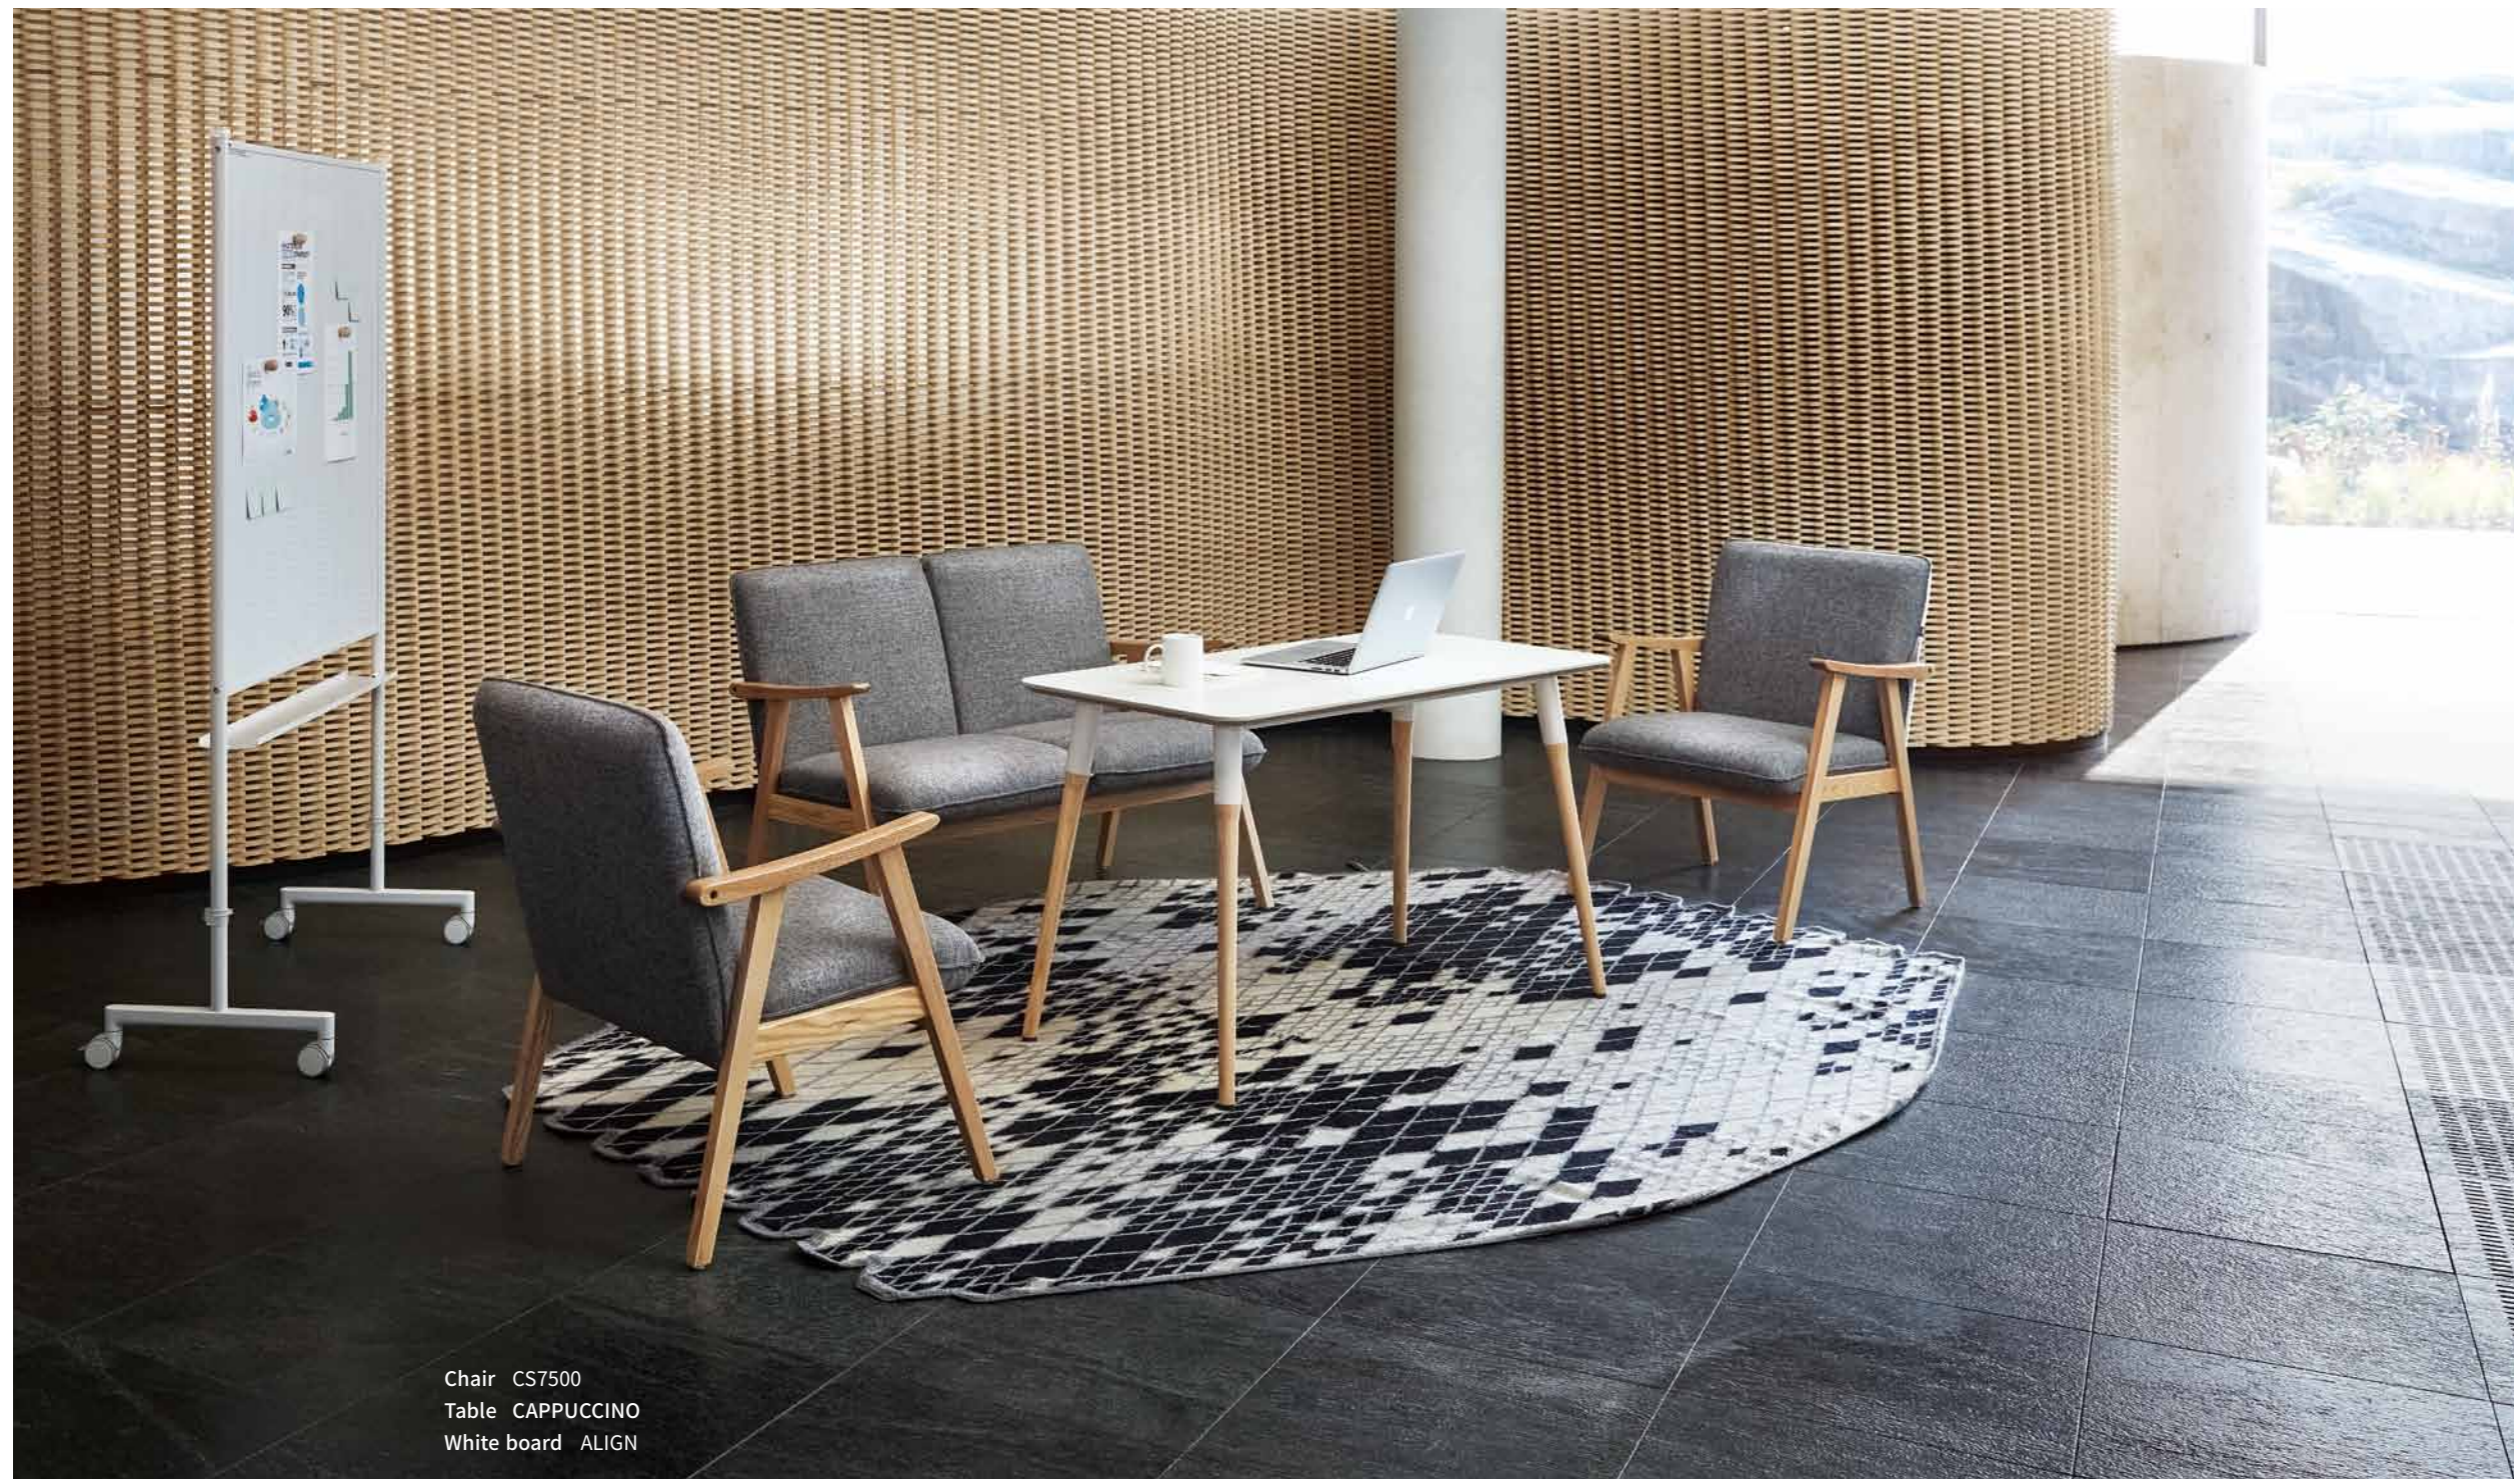

We met with Nelly Rodi, a global trend forecasting organization that has collaborated with a number of global brands, and found a new color that creates the right space. We make products that are fashionable and durable even after long use with selected materials and strict standards.
